Saturday 27th November 2021 – from 10.00 am to 1.30 pm CET
The conference will be held in **presence and online in Italian**

The conference is coordinated by Anna Maria Montaldo, Bianca Maria Aravecchia, Carolina Orsini, Anna Chiara Cimoli and Silvia Iannelli.

The conference aims to be a moment of reflection around the participatory practices developed in the last years by **Milano Città Mondo**, a dialogic space created in 2011 by the Municipality of Milan in order to co-design projects with the diaspora communities, in close relationship with **MUDEC, Museo delle Culture**.

Milano Città Mondo is in constant dialogue with the international communities living in Milan. Its goal is to intercept the plurality of the city's cultures and to represent its complexity at the crossroads of scientific research, historical testimony and interpretation of contemporaneity.

Milano Città Mondo and MUDEC take the occasion of this conference to share their practices, with the aim of creating an open confrontation with international museums and institutions that are developing similar projects, taking into account the criticalities and pitfalls, but also the opportunities of a radical methodological change.

The conference will be held online in English
